Welcome to Entroncamento

Welcome to Entroncamento, the railway hub of Portugal! This city, located in the Ribatejo region, is the ideal place for anyone who wants to learn more about the history of railway. With a strategic rail network, Entroncamento offers the perfect setting for train lovers and railway enthusiasts. In addition, the National Railway Museum, home to historic locomotives and exhibitions on the history of Portuguese railways, adds a special touch to any event, which is why it was chosen to host the Portugal Railway Summit. Feel free to explore this city during the days of the event!

The National Railway Museum tells the story of more than 160 years of railways in Portugal. Through one of the finest railway heritage collections in Europe, featuring around 36,000 objects, we offer a journey through time, from the first steam locomotives to the rail transport of the future.

5th Edition | Entroncamento, May 2024

6th Edition | Entroncamento, May 2025

Portugal Railway Summit | 7th edition

2026

Portugal Railway Summit 2026, organized by the Portuguese Railway Platform, will take place on May 20th and 21st at the National Railway Museum in Entroncamento. In its 7th edition, the event will feature panels reflecting the latest trends and technologies in the railway sector, with topics such as Railways, Defense and Industry, Competitiveness and Strategic Partnerships, High-Speed Rail, Energy and Climate Resilience, Smart Mobility and Urban Mobility, and Railway Interoperability.

This year, the focus will remain on current developments in the national railway sector, with new investments and tenders launched for the construction of the Porto-Lisbon High-Speed Rail line, as well as on topics of critical importance to the railway sector, such as its interconnection with defense, climate change, and the future of mobility, both at the urban level and beyond.

High-Speed Rail – Planning and outlook for the new high-speed rail line in Portugal, including discussions on the launched tenders and the strategy to be followed to enhance the competitiveness of the sector.

Defense – The interconnection between railways, defense, and industry, and how they can be aligned to address today's global challenges, increasing the competitiveness of the Portuguese railway sector.

Intelligent Rail Transport – Innovation serving railway maintenance and safety.

Future Mobility – The impact of disruptive technologies, such as Hyperloop and Maglev, on the railway sector and on societal development.

The event will bring together industry experts and government representatives, highlighting the role of railways in national cohesion and the opportunities of the railway sector within the European context.

Event Space

We present the event floor plan divided into 10 different areas that offer various experiences to our visitors. With networking areas, B2B meeting spaces, and renewed areas for each sponsor, this year's Portugal Railway Summit brings many new features.

We will place a strong focus on an area entirely dedicated to our sponsors and their respective stands, where they can showcase their organization. Depending on the chosen sponsorship, each sponsor will have different requirements for their stand on the Exhibition Floor. Stands with standard dimensions will be assigned, except for organizations that choose the Master Platinum level.

Responsibilities of PFP:

PFP will be responsible for the assembly and disassembly of the stands, as well as for cleaning the space before and after the event. Our team will ensure that each stand is installed and removed efficiently, meeting quality and safety standards, and guaranteeing that at the start of the event each sponsor's space is ready for use.

After the sponsorship agreement, all detailed information and specific measurements regarding the stands and event space will be sent in advance to ensure proper preparation by the sponsors. We thank you in advance for your cooperation and hope that your participation in the Portugal Railway Summit will be a success. We are available for any additional clarification.

Additional Services:

To make participation in the Portugal Railway Summit even more convenient, PFP offers the possibility of renting furniture, audiovisual equipment, and monitors for the standard stands. These additional services are available at extra cost, providing sponsors with a comprehensive solution for their needs during the event.

Procedures for Sponsors:

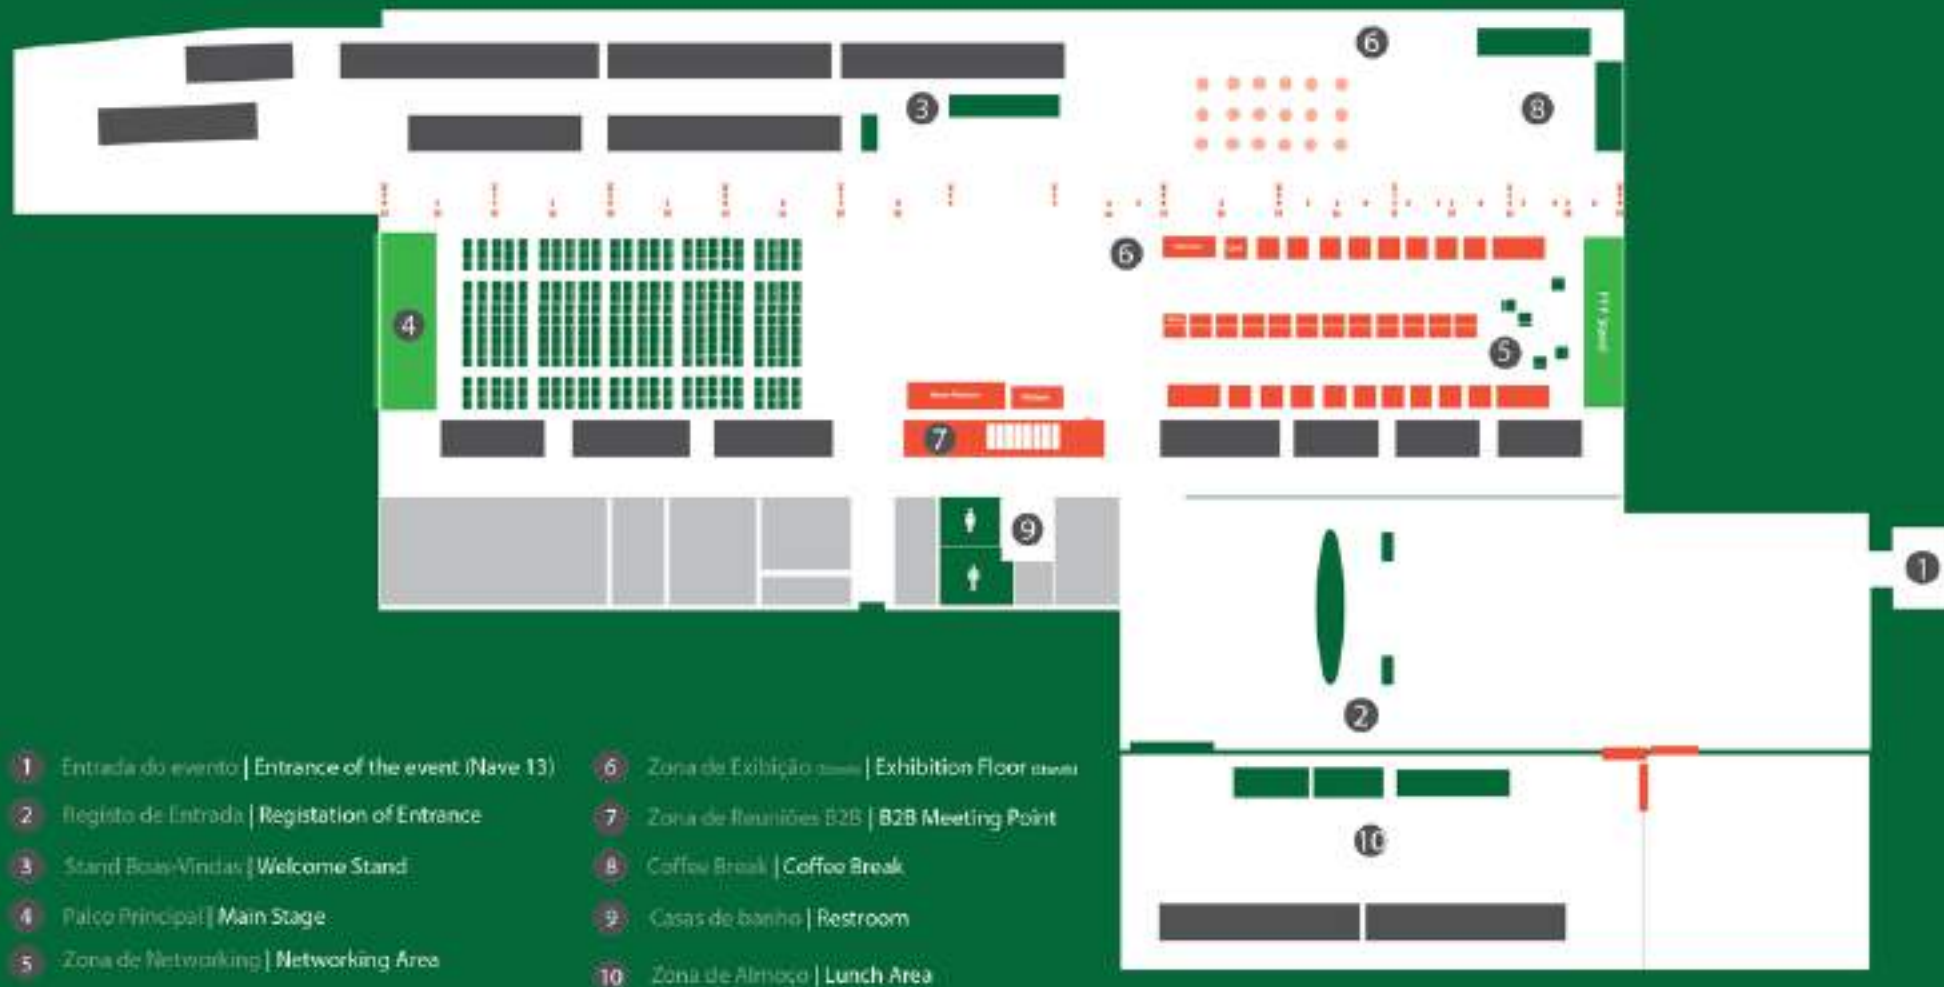

Reservation of Additional Services: Sponsors interested in renting furniture, audiovisual equipment, and monitors must coordinate these details directly with PFP, ensuring a personalized experience.

Visual Identity Submission: All sponsors who choose a standard stand must send the logo and stand graphics by April 24 to the email addresses catarina.pinto@ferrovia.pt and carmina.nabeiro@ferrovia.pt.

Please note that graphics submitted after this date will not be accepted.

PORTUGAL RAILWAY summit 2026
